

### **Dream/Vision – Coming Turmoil in America, Greg Lancaster, July 8, 2008**

I really don't like to bring up negative tragic things, but I must share what God has been showing me. I have noticed that over the past two years what God has spoken to me in my spirit and I've shared has come to pass just as He was saying, so I can't stop sharing now.

I saw in a dream coming turmoil. In this dream others were also having dreams of the same coming turmoil. They were in agreement as they shared and heard each other's dreams that it was accurate. They were even wanting their dreams to be recorded on video. I didn't see the turmoil, but I sensed deeply that it's coming. I awoke to a vision of America moving at a high rate of speed in a bad direction. It was like it was a moving vehicle or craft of some sort and President Bush was at the wheel. I saw President Bush at the wheel of America trying to steer it as it was shaking dramatically. The whole nation was vibrating and shaking. He was trying to keep it on course, but collision was imminent. It was a brave man's attempt to do his best. What came to mind was Scotty, the man who ran the engine room on Star Trek and the captain was telling him to increase his speed and Scotty replied... "She's coming apart captain."

### **From "Journal of the Unknown Prophet" Wendy Alec's visitation from Jesus**

**Word to the intercessors:** So My intercessors shall find favor with My Father if they plead for mercy to triumph over judgment - if they will ask My Father to stay His judgment - if only they will require of Him. He sits on His throne weeping for the judgment that has yet to be poured out on the earth and upon His beloved creation. And so He waits. He waits for the ones who will plead for mercy for the ones who will stand in that place between the living and the dead; and surely I tell you this day, that if His people, beloved of Him, ask Him to stay His hand of judgment, that His hand will be stayed for a season, that His creation may look well to their ways.
